To Whom It May Concern,

I worked with Jonathan at Technical Glass Products/Allegion for two years. He learns quickly and puts a great deal of effort into his work. In that time, we developed a great friendship and continue to be good friends to this day. He is usually the first to finish a task and do it with precision and high quality and this gives him the opportunity to learn and do more within his department. Jonathan is a great addition to any work environment.

Best,

Adrian Gant
